

# CMN 2021

**Int'l Conference on Composite Materials and Nanotechnology (CMN 2021)** will be held from August 20-22, 2021 in Guilin, China. This Conference will cover issues on **Composite Materials and Nanotechnology**. It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods. CMN 2021 will be an important and reliable platform for inspiring international and interdisciplinary exchange at the forefront of Composite Materials and

Nanotechnology. The Conference will bring together academicians, engineers, educators and policy-makers from all over the world, and we hope that you will take this opportunity to join us for academic exchange and visit the city of Guilin.

## CALL FOR PAPERS

**C o n f e r e n c e D a t e :** August 20-22, 2021

**V e n u e :** Guilin, China

**R e g i s t r a t i o n D e a d L i n e :** August 20, 2021

### Topics of interest for submission include, but are not limited to :

Adaptive material and structure Applied Composite Materials  
Application of Nanotechnology in Composite Materials  
Advances in Materials and Processing for Nanotechnology and Nanofabrication  
Bio-composite Materials  
Biomimetic composites  
Carbon Nanotubes and Biomolecules  
Ceramic-matrix Composites  
Composite Interfaces  
Composite Processing and Manufacturing  
Composite Properties and Characterization  
Concrete and cementitious composites  
Environmental Effects  
Fatigue, Fracture and Damage of Composites  
Fiber Hybrid Composites/Textile Composites  
Functional/Multifunctional Composites Inorganic  
Non-metallic Matrix Composites  
Green Composites  
Hybrid Composites  
Materials Science and Engineering: Nanotechnology  
Mechanics of Composite Materials  
Metal-matrix Composites  
Molecular Electronics  
Nanocomposites  
Nanotechnology and Materials Sciences  
Nanoelectronics  
Nanomechanics  
Nanomanipulation  
Nanooptics and Nanophotonics

## Publication and Presentation

Publication: Open Access Journal.

Index: CNKI and Google Scholar

Note: If you want to present your research results but do NOT wish to publish a paper, you may simply submit an Abstract to our Registration System.

## Venue

Located in the northeast of Guangxi Zhuang Autonomous Region in south China, Guilin is considered to be the pearl of China's thriving tourist industry on account of the natural beauty and historic treasures. Covering an area of about 27,800 square kilometers (10,734 square miles), the city is rather compact when compared with other major tourist cities in the country. The stunning landscape in which the city is situated has a kind of magic that is all its own. The strangely shaped hills or karsts, with the verdant vegetation ranging from bamboos to conifers together with crystal clear waters and wonderful caves make the city such an appealing destination. It is also an important cultural city with a history of more than 2,000 years. The city has been the political, economic and cultural center of Guangxi since the Northern Song Dynasty (960-1127).
