

# ICBM2021

**Int'l Conference on Biomedical Materials (ICBM 2021)** will be held from August 20-22, 2021 in Guilin, China. This Conference will cover issues on **Biomedical Materials**. It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods. ICBM 2021 will be an important and reliable platform for inspiring international and interdisciplinary exchange at the forefront of Biomedical Materials. The Conference will bring together academicians,

engineers, educators and policy-makers from all over the world, and we hope that you will take this opportunity to join us for academic exchange and visit the city of Guilin.

## CALL FOR PAPERS

**C o n f e r e n c e D a t e :** August 20-22, 2021

**V e n u e :** Guilin, China

**R e g i s t r a t i o n D e a d L i n e :** August 20, 2021

### Topics of interest for submission include, but are not limited to :

Adaptive material and structure Advanced Gene and Drug Delivery Systems/Vaccine Carriers  
Applied Biomaterials  
Anti Aging Medicine  
Biofabrication  
Biomimetic Materials/Bioinspired Intelligent Biomaterials  
Biomedical Inorganic Nonmetallic Materials (Bioceramics, Bioglass, etc)  
Biomedical Metal Materials  
Biomedical Polymer Materials  
Biomedical Composite/Hybrid Materials  
Biodegradable/Functional Biomaterials  
Bioactive Materials for Regenerative Medicine  
Biomedicine and 3D Bioprinting Biomaterials  
Biomaterials in Stem Cell Technology  
Biomaterial for Implants  
Biomaterials for Therapeutic Delivery  
Bio-Imaging & Biophotonics  
Biomaterials & Nanotechnology  
Biomedical Engineering Techniques  
Bio-Banking & Bio-sensors  
Cell-Material Interaction  
Emerging Methods/Technologies  
Hydrogels  
Molecular Biocompatibility of Biomaterials  
Nanobiomaterials  
Natural Biomaterials  
Polymer Biomaterials  
Regenerative Medicine  
Scaffolds

### Publication and Presentation

Publication: Open Access Journal.

Index: CNKI and Google Scholar

Note: If you want to present your research results but do NOT wish to publish a paper, you may simply submit an Abstract to our Registration System.

### Venue

Located in the northeast of Guangxi Zhuang Autonomous Region in south China, Guilin is considered to be the pearl of China's thriving tourist industry on account of the natural beauty and historic treasures. Covering an area of about 27,800 square kilometers (10,734 square miles), the city is rather compact when compared with other major tourist cities in the country. The stunning landscape in which the city is situated has a kind of magic that is all its own. The strangely shaped hills or karsts, with the verdant vegetation ranging from bamboos to conifers together with crystal clear waters and wonderful caves make the city such an appealing destination. It is also an important cultural city with a history of more than 2,000 years. The city has been the political, economic and cultural center of Guangxi since the Northern Song Dynasty (960-1127).
